

Ice Skating Queensland Inc. Policy Document

RISK MANAGEMENT

Authority	Ice Skating Queensland Inc Council – 17th November 2004		
Application	ISQ Inc. Staff, Officials, Volunteers, Members, Visitors & Guests		
Effective: 17th November 2004	Review Date: 1st July 2022	Policy No: 016 / 2004	

POLICY OBJECTIVE

The prime objective is the avoidance of injury to persons and damage to property. Further objectives of the risk management program are to limit the impact of any financial risks to ISQ, to address, in an appropriate manner, legal matters pertaining to ISQ and to ensure the safe and respectable conduct of all of ISQ's staff members, officials and volunteers while performing duties for ISQ.

POLICY

Risk Management is the process of identifying, measuring, evaluating and controlling the risks inherent in the operations of the Association and adheres to the Risk Management Process as per AS/NZS ISO 31000:2018.

It is the responsibility of each volunteer, official and staff member of the ISQ to support this policy and to manage risk within his or her area of the operation of the organization. ISQ requires a positive approach to risk. Risks should be foreseen and reasonable protective measures taken.

For ISQ, risk management is tied to its duties in every area of operation for the safety and well being of all members, visitors and guests. Risk management is also tied to ISQ's duties and responsibilities to each of its volunteers, officials and staff members.

ISQ recognises that risk cannot be completely eliminated. However, all reasonable efforts should be taken to minimise risk.

Risk is many faceted and needs coordinated management. Since it affects every aspect of the association's operations, every member must be involved in managing risk. The cooperation of members, visitors, staff, officials and volunteers is essential for risk management to be a success.

It is the responsibility of the ISQ Council to coordinate the efforts to manage risk to members, visitors and guests and to ISQ property. The ISQ Council must provide leadership in the area of risk management.

The ISQ Council will coordinate the ongoing reviews of its Risk Management Plan and ensure that risk management forms an essential part of the day-to-day culture of the association.

REASONING

The ISQ is of the view that risk management is integral to the overall operation of the association.

Additional benefits of a risk management program are better-structured insurance programs, resulting in the securing of cover at reasonable costs.

Issued by authority of the Council of Ice Skating Queensland Inc. 17th November 2004.
